## Was Loss of Life

## In a Utah Mine Explosion Tuesday.

## Fully 200 People Reported Killed

## And Many Were Injured—137 Bodies Recovered.

## Explosion Due to Blowing up of Blasting Powder.

Salt Lake, Utah, May 2.—A terrific explosion occurred yesterday in the winter quarters of the Pleasant Valley Company's coal mine at Schofield, on the Rio Grande Western railroad, near Colton, Utah, by which according to reports, fully 200 people were killed and many injured. One hundred and thirty-seven bodies have already been recovered.

The cause of the explosion is attributed to the blowing up of a number of kegs of blasting powder.

The work of rescue is going on and everything possible is being done to relieve the suffering and ascertain the number of dead. Supt. Sharp of the coal company, and Supt. Welby, of the railroad company, have gone to the scene on a special train.

Among the dead already identified are the following:

Roger Davis.  
Jack Wilson.  
R. T. Evans.  
Pete Crockett.  
Mr. Anderson.  
James Wilson.  
Will Winstead.  
Mr. Haddow and son.  
Severely injured:  
John Kerton.  
Thomas Tivney and son.  
William Bewster.  
Thomas Sellers.  
Thomas Brown.

There were 230 men at work in the two mines, Nos. 1 and 4. The balance of the miners are dead. The explosion is supposed to have occurred in No. 4, and extended by a connection to No. 1.

## ADDITIONAL SPORTS.

## JEFF'S CLOSE CALL.

The boxing match between Champion Jeffries and Jim Corbett, scheduled for May 11 at the Seaside Athletic Club of Coney Island, came dangerously near being indefinitely postponed Monday from a cause altogether different from that which is agitating the management of the Seaside Athletic Club. The big fellow has his quick wit, agility and sharp eye only to thank for this deliverance from a serious and perhaps fatal accident.

The champion started out early for a six mile spin on his wheel, taking the stone road toward Long Branch. On his return by the same route he started to sprint for home, and as he reached the intersection of Cedar avenue and the stone road he found himself pocketed between a carriage and stage coach going in opposite directions. In his efforts to avoid running into the carriage, Jeffries made a sharp turn to the left and ran plump into the stage coach. He was thrown violently from his wheel, head first, and slid for about 20 feet on his left side. His left hip was bruised and a contusion of the left forearm tells the story of his contact with something harder than his muscles.

Notwithstanding the bad shake-up Jeff went right on with his training on reaching the gymnasium, and says he feels no ill effects from his injuries, but admits getting a jolt that beats

anything he expects to receive from Corbett.

## SPORTS NOT WORRYING.

President York of the New York Police Board refused to say yesterday after the meeting of the board, whether or not the question of issuing licenses to the various boxing clubs to run until September 1, when prize fighting as permitted under the Hotton law will become illegal, had been considered. "There were no licenses issued to clubs," said President York, "and that's all I care to say about it." Commissioner Hess said that the matter had not been discussed at all. The board did take up the theatrical and concert hall licenses. Every theatre received its license for the ensuing year without an objection. When the turn of the concert halls came, a great many licenses were held over for further consideration. The sporting fraternity does not appear to be worrying about the license question and it apparently is understood that the athletic clubs will be permitted to do a 25 round boxing business until September 1, as the law permits.

## STRIKE

## To Become General.

## N. Y. Central Employees Will Not Back Down

## And They Are Growing Weary of Delay.

## The Brotherhood of Trainmen May Join Them.

## Employees and Superintendent Have Conference.

Buffalo, May 2.—(Spl.)—Supt. Walt arrived here at 7:25 o'clock and according to the plans that have been made, he will meet a committee of strikers today. Everything depends on this conference. If the statement made on Monday by President Galla-way may be taken as an indication of the company's policy little progress may be expected at today's conference. A general strike seems inevitable. Late yesterday afternoon 550 of the Lackawanna's car repairers, employed in the shops here, went on a strike in sympathy with the New York Central men and they were soon followed by 150 in the Nickel Plate shops. The meeting of the Brotherhood of Railway Trainmen developed little. The trainmen were very reticent, and say their meeting had nothing to do with the strike of the car repairers. It is said that if today's conference is not favorable to the strikers, however, that they will go out. This is also true of the Lehigh, Valley and Erie yard men, oilers and inspectors.

The strike of the freight handlers was felt more this morning than it was yesterday. Great quantities of milk was not removed from the cars and meats and vegetables were either left in the cars, or the freight houses, because the men were not there to handle them. Pickets are now stationed at all of the freight houses, as well as all of the repair shops where the strikers have quit, and they have successfully prevented a non-union man from going to work in any of these places.

Before nightfall, it is believed the New York Central trainmen will go out on a strike in sympathy with the freight handlers and practically tie up the road.

The Brotherhood of Trainmen, embraces conductors, switchmen, brakemen and yardmasters in both the freight and passenger departments. Their defection would tie up the freight traffic completely and seriously cripple the running of all passenger trains.

The Brotherhood arrived at a decision at a meeting which lasted far into the night. They determined to stick by the dissatisfied freight handlers. If an attempt is made to fill the places of men now on strike with non-union men they will go out at once.

"No compromise" was the watchword in the yards this morning. "No back down from the demand for higher wages and the reinstatement of discharged union employees." No further

procrastinating to give the company time to get non-union men to fill their places. Absolute surrender by the company or a tie up."

## Health and Beauty

For generations women have been taught that "beauty is only skin deep" but like many proverbs, that will not stand. Beauty is blood deep. There can be no beauty without health. Our grandmothers lived closer to nature than we do, and they were so sheltered by their home life, that health and beauty were theirs naturally. Skin foods, freckle lotions and face bleaches were unknown commodities. But there has been a great change in the life of women since then. With broader education and larger opportunities, she has developed mentally at the expense of her health. From the quiet duties of home, she has gone forth until now we find her in many avocations of life, which prove too great a tax on her vitality. How sad it is to see the cheek robbed of its color and the eye of its fire. These symptoms nearly always show derangements in the delicate feminine organism. They don't call for bleaches nor paints nor powders, but for a remedy that will make the afflicted organs strong and well. Wine of Cardui is just such a remedy. Women broken in health and spirit have been made healthy and happy by this Wine. No one should give up to the "blues," until this reliable remedy has been tried. It has proven a blessing to other women, and it will not disappoint you. It brings that buoyancy of spirit, elasticity of step and lightness of heart which is the corner stone of beauty. A healthy woman is always beautiful.

I feel that I must say a few words in praise of the ladies' greatest friend, Wine of Cardui. It is the most wonderful remedy that I ever tried. I have been a sufferer for years, at times being confined to my bed, two or three days each month. A friend recommended Wine of Cardui, and since I have taken it I have been greatly relieved. I intend to continue to take it for I know it is as recommended. I will use every effort to get others to use it.
